English

You are invited to take part in a study session for a university course project. The session is either a recorded interview (about 20 minutes, audio only) or a usability test of a website prototype (about 30 minutes, screen and audio recorded).

- Participation is voluntary. You can stop at any time, without giving a reason.
- Recordings are used only for this course project. They are stored privately and shared only with the course instructor as exam evidence.
- Quotes may appear in the project report, anonymized and translated into English.
- No personal data beyond age range, study stage, and field is collected.
